

Make room in your wallet for your **FREE** Member benefit. Here's your RxAmerica Plan Card.

As a participating organization, we are delighted to offer a Discount Prescription Drug benefit to all members **at no charge**.

The program is simple to use. Just present the card attached below to a participating pharmacy for a 30-day supply and save up to 20% on brand-name prescription drugs, perhaps as much as 50% on generic drugs. Based on a computer-generated comparison, you will be charged the pharmacy "sale price" ("Loss Leader") or the discount price, whichever is less. The program assures you the lowest price in a participating pharmacy for a specific drug on a specific day. Then submit the receipt to your insurance carrier for reimbursement, if applicable.

Current prescription refills can be purchased through the RxAmerica Plan when you bring your prescription container to a participating network pharmacy. To transfer a prescription, consult your pharmacist as certain laws apply when a controlled substance is involved. In most cases, a prescription container will suffice.

Mail Order Benefit: Quick, Convenient, and Cost Effective

If you are taking maintenance medication, this discount card program allows you to order up to a 90-day supply of medication through RxAmerica Home Delivery. Home Delivery enables you to order at your convenience and have prescription medication delivered directly to your home.

For more information about RxAmerica Home Delivery and maintenance medication please call 1-877-889-3402. For other Customer Service needs please call 1-800-770-8014. Customer Service is available 24 hours a day, 7 days a week, except on certain holidays.
